

## KEY BENEFITS

### EASY TO USE

With intuitive controls and customizable dashboards, Acumatica is easy to use and delivers desktop-like performance right out of the browser. Anywhere access from any web-enabled device for unlimited users means you can involve everybody.

### CUSTOM FITTED

A comprehensive solution with deep functionality, Acumatica integrates and extends easily to work the way you want it to. Customize Acumatica to meet your unique requirements, or integrate third-party ISV add-ons to extend Acumatica's capabilities.

### PAYMENT FLEXIBILITY

Choose how you want to pay: Get Acumatica as a subscription, or simply buy the license, and it's yours. Acumatica gets you everything you need for everyone in your company at one affordable price. No guesswork and no hidden costs. Priced for unlimited users, so you are free to grow.

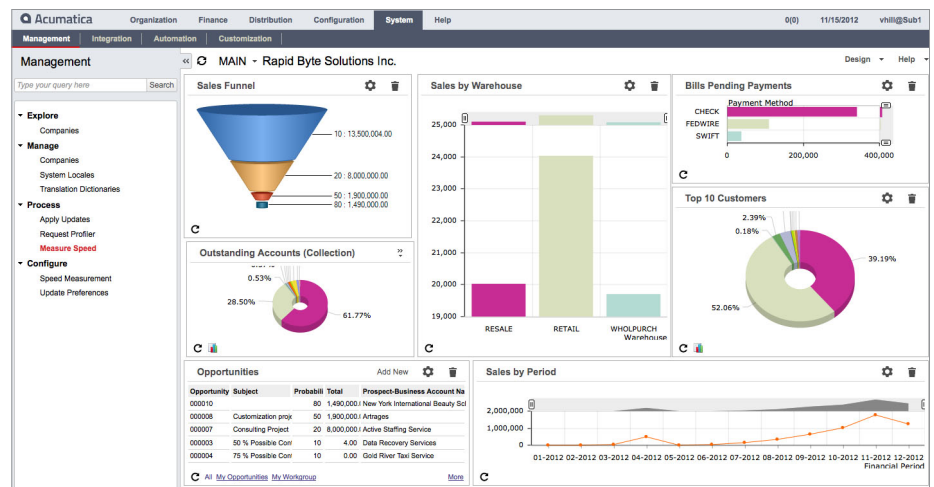

### DEPLOYMENT CHOICE

Choose your deployment option: SaaS, On-Premises, or Hosted, and switch between the options easily as your business needs change. No matter what deployment, it's the same powerful cloud ERP.

# ADAPTABLE CLOUD ERP

**Ultimate flexibility and choice with a custom-fit solution that lets you work anywhere, from any web-enabled device.**

Acumatica is the only secure, cloud- and browser-based Enterprise Resource Planning (ERP) solution that adapts to the needs of small and mid-sized businesses (SMBs). Acumatica is a comprehensive solution, with vast capabilities in its Financial Management, Distribution Management, Customer Management, and Project Accounting suites, and is highly configurable and extensible.

## ACUMATICA SUITES

All Acumatica application suites are web-based, integrate fully with one another, and work on a centralized database. They can be purchased individually or combined.

<b>Financial Management Suite</b>	A powerful set of financial applications used by almost every organization, no matter how complex or simple requirements are. Bring rigor to business processes in a user-friendly way.
<b>Distribution Management Suite</b>	Works together with the Financial Management Suite as a full distribution solution. Starting from the requisition process to purchasing, order management, inventory tracking, automated inventory replenishment suggestions, and more.
<b>Customer Management Suite</b>	Fully integrated with the Financial and Distribution suites, the Customer Management Suite uses dashboards and reports to provide real-time sales data. A self-service Customer Portal lets you give customers access to the information you choose.
<b>Project Accounting Suite</b>	With the Project Accounting Suite, deliver on project objectives on time and on budget. Manage complex reporting requirements. Include projects in company-wide financial reports.

## DESIGNED TO BRING YOU THE BEST OF THE CLOUD

Acumatica is the most easy-to-use, fastest and powerful cloud- and browser-based ERP solution available. Committed to constant improvement with usability in mind, Acumatica gives users access to robust functionality that is still straightforward and simple to use.

### MOST POPULAR ENHANCEMENTS TO ACUMATICA

<b>Ease of use</b>	Acumatica's user interface and navigation makes working in Acumatica faster and more intuitive. Work on any mobile device, with its tablet-friendly design and dynamic page layout. Find information faster with improved keyword search, data entry with suggestions and auto-complete, and advanced filtering in grids. Complete tasks more quickly with drag and drop functionality and real-time connectivity with Excel.
<b>Financial Management Suite</b>	Forecast cash flow based on a 30-day trend that incorporates cash transaction statistics. Display all approvals on a single screen to manage process flow more easily and save time. Enter documents related to multiple modules within a single screen and benefit from improved tax reporting.
<b>Distribution Management Suite</b>	Automated inventory replenishment suggestions based on historical sales data analysis improves cash flow and optimizes stock levels. Get up-to-date freight costs for each USPS shipment, print carrier and return labels, and generate tracking numbers. With just a few clicks, fulfill large volumes of shipments using pre-defined, automated packing rules.
<b>Customer Management Suite</b>	An out-of-the box Customer Portal allows you to give customers access to financial and case information. Automatically attach incoming and outgoing emails to various Customer Management Suite features.
<b>Project Accounting Suite</b>	Handle the most complex billing rules and easily calculate project revenue based on key project-specific attributes. Keep better track of costs by correctly accounting for work in progress (WIP). If a bill was generated and applied incorrectly, it can now be reversed and regenerated.
<b>Platform performance</b>	With the same server specifications, Acumatica handles more users or a larger workload than its predecessor. Built on .NET 4, users can navigate to new screens across all areas of the application 3X faster, and navigate between records 2X faster. Be ready for audits all the way down to the field level, as every change made is retained.
<b>Extensible</b>	Acumatica Studio now includes functionality that enables the packaging and redistribution of customizations without them conflicting with other existing customizations.
<b>Third-party solutions</b>	Powerful integration with popular third-party solutions, such as Box for online content and collaboration, and AvaTax by Avalara for sales tax automation.
<b>Technology advancements</b>	Expanded API lets users embed reports within Acumatica report writer to generate reports automatically in PDF format without user intervention. Data-rich reports now generate faster.

## CUSTOMER SUCCESS STORIES

### HEAR FROM OUR CUSTOMERS

#### 400% PRODUCTIVITY GAINS

AME Corporation, a mid-sized manufacturer with operations in the US and China, sees 400% productivity gains with Acumatica. Screens open three times faster, navigation time between records is halved, and integration is seamless with online content sharing platform Box.

#### CUT PROCESSING TIME BY 35%

Online payment platform provider Payza specializes in e-commerce processing and remittances for more than 9 million members worldwide. With Acumatica, payroll processing time is cut by 35%, intercompany accounting is simplified, and more users were added with no additional licensing costs.

#### \$80,000 SAVINGS PER YEAR

P'kolino, a design firm in the US, switched its ERP system from Quickbooks to Acumatica. As a result, the company doubled productivity, saw a 75% reduction in data errors, and saved \$80,000 a year, mainly through the automation of sales orders.
